INDUSTRY BOOM

The employee transportation service market, is estimated to have generated a revenue of ₹503.5 billion (\$6.1 billion) as of CY2023, and it exhibits steady expansion growing in line with development of corporates such as IT, Global Capability Centers (GCC) segments etc.

It is expected to grow at a CAGR of 11.8% to reach ₹1097.6 billion (\$13.2 billion) revenue in CY2030. This aligns with India's growing economy, the rise of the organized sector, and increasing employee expectations for convenient commutes.

By CY2028, India's Tier 2 & 3 cities are projected to host 57% of the urban workforce. Although Tier 1 cities currently contribute significantly, mobility providers are aiming to capitalise on smaller cities as additional revenue sources.

The ETS market caters primarily to corporates, particularly in tier-1 cities, with pricing models varying based on vehicle type, route distance, and service customization. Common models include per-employee, per-trip, and fixed monthly charges.

KEY STRATEGIES

Geographical Expansion

We aim to expand into Tier-I cities like Chennai, Bangalore, and Hyderabad, and Tier-II cities like Chandigarh, and Surat, while strengthening our presence in existing locations such as Kolkata, Mumbai, Pune, Bhubaneswar, Delhi-NCR, Lucknow, Ludhiana, Jaipur and Ahmedabad.

Expanding Sales Team

We plan to acquire new clients, increase revenue from existing customers, and enter untapped markets. Enhanced operational presence and an expanded sales team will support these efforts.

Fleet Expansion

To meet growing demand and improve operational capacity, we will increase fleet size, ensuring flexibility, reliability, and efficiency across all locations.

Brand Building and Operational Excellence

We will focus on customer satisfaction, safety, and efficient services, supported by staff training, feedback mechanisms, and adoption of the latest industry practices to enhance the customer experience.
